

## Investor Online Transactions Now Available on AnswerLine

Canadian Stock Transfer Company Inc. (CST) is pleased to introduce new transaction features to AnswerLine™, our online portal for investors. Available 24 hours a day, AnswerLine now features self-service options which will allow registered users to:

- Update their mailing or email address
- Request dividend cheque replacements
- Request a copy of a cashed dividend cheque
- Submit a streamlined inquiry request

Many of these new features would have previously required assistance from our call centre or the completion of a detailed form. In addition to the options above and in response to a number of investor requests, users can view the total market value for all publicly traded holdings (in addition to individual holdings).

Investors interested in or already participating in a dividend reinvestment program will also find a series of new options, enabling them to:

- Enrol in dividend reinvestment plans
- Request plan withdrawals and terminations
- Request a duplicate statement

In addition, we are introducing a new feature to AnswerLine that will allow plan participants to view the status of pending optional cash payments. This service will be available for any payment received by CST after July 3, 2012.

These features are available to registered users of the CST AnswerLine portal. If you have an AnswerLine ID, log in and view the new functionality first-hand by clicking [here](#). You will note that we have also updated the password reset and change options. If you do not presently have an AnswerLine ID, please click [here](#) to register now.

The online features we are introducing today are the first in a series of enhancements to our website. CST is committed to investing in technologies that contribute to a superior investor experience. Additional functionality will be introduced over the coming months and we welcome any suggestions you may have for further enhancements. Please [contact us](#) with your feedback.
